

**Mr. Dominik Matschi**  
GOM GmbH

Career:

Dominik Matschi studied Economics at the University of Regensburg and the Katholieke Universiteit Leuven. He joined GOM GmbH in October 2012.

Current employment:

Mr. Matschi works at GOM GmbH as an application engineer for optical metrology systems for more than five years. He is mainly involved in the international sales business of the optical measuring system ARAMIS for the analysis of 3D data in the fields of Materials Testing and Component Testing.

He takes care of the support and education of the business partners around the world on technical and sales related issues.
