

**Dr. Mike (Moisei) Bruhis**  
McMaster University, Hamilton, Canada

M. Bruhis studied at the Leningrad Polytechnic Institute M.I.Kalinin (LPI), Faculty of Mechanical and Machinery Engineering Department of Machines and Technology of Metal Forming, Leningrad, USSR. After receiving his Doctor of Technical Science (Doctor of Science Diploma TH No. 072692, Moscow, June 11, 1984) he worked as a Processing Office Manager of the Forming – Welding Workshop, Chisinau, R.Moldova. In July 2002 M. Bruhis became the Research Engineer in the metal forming laboratory (MFL) at the McMaster University, Hamilton, Canada. His current research areas are metal forming, material testing, and tool design. He became the leader of the Research Group, and provides specialized professional engineering support in the field of metal forming and material testing to the faculty, research staff, and graduate students. He also assists with graduate and undergraduate thesis research.
